CHARACTER HISTORY

Purchased at a young age, Corey learned to call

the Saringrethi family her own. She spent her

childhood cleaning up after the nobles of the

family, accepting what scraps were thrown

her way. Without formative schooling, she

never learned to read or write, "Such skills

belong with those who have the capacity to use

them", her family would say. This led her to

seek alternative education. Knowing the family

wouldn't provide for her once she grew into a

young woman, and being otherwise unable to

provide them with values beyond that of a

servant, or worse, a slave to be traded off to the

closest harem, she learned basic thievery,

stealth, and manipulation and set out on her

own. Corey snuck aboard a ship to a newly

discovered land called Taldora. There, she

fights for freedom while seeking riches.
